

First Mediterranean Thematic Workshop on Advanced Molecular Brain Imaging with Compact High Performance MRI-Compatible PET and SPECT Imagers – Potential for a Paradigm Shift

Saturday, 1 September 2012

Introductory session (09:00 - 11:30)

-Conveners: F. Garibaldi; S. Vesna

time	[id] title	presenter
09:00	[2] Molecular brain imaging: history and state of the art	Dr SOSSI, Vesna
09:30	[3] Neuroimaging: what can we learn from qualitative and quantitative functional brain imaging	Dr SOSSI, Vesna
10:00	Coffee Break	
10:30	[5] PET in Neuroscience and Drug Development	Dr HALLDIN, C.
11:00	[6] Multimodality operation of PET detectors with MRI/fMRI	PICHLER, B
