

Session Program

28 June 2012 to 4 July 2012

**International Conference on New Frontiers in
Physics**

Thursday Parallel Session I

Kolymbari, Crete, Greece

Monday 2 July

18:10

Thursday Parallel Session I

Session | Location: Kolymbari, Crete, Greece

18:10–18:35

The relevance of light dark matter

Speaker

Prof. Urjit Yajnik

18:35–19:00

High-energy cosmic rays and tests of basic principles of Physics

Speaker

Luis Gonzalez Mestres

19:00–19:25

Cosmology in a petri dish? Simulation of collective dynamics of colloids at fluid interfaces

Speaker

Johannes Bleibel

19:25–19:50

Recent Results from the IceCube Neutrino Observatory

Speaker

Kara Hoffman

19:50–20:15

Indirect dark matter search with the ANTARES Deep-Sea Cherenkov detector

Speaker

Paolo Fermani

20:15
