

Session Program

28 August 2013 to 5 September 2013

International Conference on New Frontiers in Physics

Parallel 5

Kolymbari, Crete, Greece

Thursday 5 September

10:50

Parallel 5: Particle physics, cosmology

Session | **Location:** Kolymbari, Crete, Greece | **Convener:** Jeanette Miriam Lorenz

10:50-11:10 Charm and beauty photoproduction at HERA

Speaker

Monica Dobre

11:10-11:30

Measurements of the production of P-wave charmonium states through radiative decays at the ATLAS experiment

Speaker

Michal Marcisovsky

11:30-11:50

Searches for third generation SUSY from CMS

Speaker

Dr Niki Saoulidou

11:50-12:10

Inclusive searches for SUSY from CMS

Speaker

Arne-Rasmus Drager

12:10-12:30

Pre-Big Bang, spinorial space-time, asymptotic Universe

Speaker

Luis Gonzalez Mestres

12:30-12:50

Overview of the DES experiment at the Blanco Telescope

Speaker

James Annis

12:50-13:10

free

13:10
