

Session Program

28 August 2013 to 5 September 2013

International Conference on New Frontiers in Physics

Plenary: Sesson 1

Kolymbari, Crete, Greece

Thursday 5 September

08:30

Plenary: Sesson 1: Quantum optics, particle physics

Session | **Location:** Kolymbari, Crete, Greece | **Convener:** Shahn Majid

08:30–09:00 **The Higgs: so simple yet so unnatural**

Speaker

Guido Altarelli

09:00–09:30

Quantum non locality based on finite-speed causal influences leads to superluminal signalling

Speaker

Jean-Daniel Bancal

09:30–10:00

JEDI - Juelich Electric Dipole Moment Investigations

Speaker

Hans Stroehrer

10:00–10:30

The NICA project at JINR Dubna

Speaker

Alexander Sorin

10:30
