

International Conference on New Frontiers in Physics

Thursday, 5 September 2013

Parallel: Session 4: Particle, gravity, heavy ion physics (10:50 - 13:10)

-Conveners: Ludmila Malinina

time	[id] title	presenter
10:50	[451] FAIR physics and the origin of elements	MONTES, Fernando
11:10	[452] New Indicators of the Finite Volume Transition Point in QCD Deconfinement Phase Transition	LADREM, madjid
11:30	[453] Dense Cold Matter	STAVINSKIY, Alexey
11:50	[456] Open heavy flavor measurements in d+Au collisions at PHENIX experiment	LIM, Sanghoon
12:10	[457] Heavy flavour production in the STAR experiment at RHIC	KABANA, Sonja
12:30	[458] The ICARUS Experiment: latest results	MONTANARI, Claudio Silverio
12:50	[466] Precise measurements of hadron productions in e+e- annihilation in the energy range up to 2 GeV	SHATUNOV, Yury
