

International Conference on New Frontiers in Physics

Tuesday, September 3, 2013

Parallel 1: Heavy ion physics (heavy flavour, quarkonia) (6:10 PM - 7:50 PM)

-Conveners: Annalisa Mastroserio

time	[id] title	presenter
6:10 PM	[380] Heavy flavours in nucleus-nucleus collisions at RHIC and LHC	NARDI, Marzia
6:30 PM	[381] Upsilon suppression in PbPb collisions at energies available at the CERN Large Hadron Collider	Mr NENDZIG, Felix
6:50 PM	[382] J/psi production measurements at midrapidity from pp to Pb-Pb collisions with ALICE	MASTROSERIO, Annalisa
7:10 PM	[383] Charmonium measurements at forward rapidity in Pb-Pb and p-Pb collisions with ALICE at LHC	DAS, Indranil
7:30 PM	[384] Upsilon production in pp and PbPb collisions with ALICE at LHC	ROSNET, Philippe
