

International Conference on New Frontiers in Physics

Tuesday, 3 September 2013

Parallel 1: Heavy ion physics (heavy flavour, quarkonia) (18:10 - 19:50)

-Conveners: Annalisa Mastroserio

time	[id] title	presenter
18:10	[380] Heavy flavours in nucleus-nucleus collisions at RHIC and LHC	NARDI, Marzia
18:30	[381] Upsilon suppression in PbPb collisions at energies available at the CERN Large Hadron Collider	Mr NENDZIG, Felix
18:50	[382] J/psi production measurements at midrapidity from pp to Pb-Pb collisions with ALICE	MASTROSERIO, Annalisa
19:10	[383] Charmonium measurements at forward rapidity in Pb-Pb and p-Pb collisions with ALICE at LHC	DAS, Indranil
19:30	[384] Upsilon production in pp and PbPb collisions with ALICE at LHC	ROSNET, Philippe
