Discussion on Hadronic Validation & Tests (I)

- ## Which are the hadronic tests:
  - https://geant4.cern.ch/collaboration/working_groups/hadronic/testing/index.shtml
- ## Models validated:
  - Missing model validation ?
  - Obsolete models ?
  - Validation of upcoming models: LEND & HP, etc.
- ## Feedback from users community:
  - Dual Readout Calo R&D - Energy (non)conservation concern

Discussion on Hadronic Validation & Tests (II)

- **System and Unit Tests:**
    - Substantial overlap between validation & system tests
    - Summary table by Dennis (URL on Dennis' talk and on p.1)
    - Unit tests are in developer's responsibility
    - "Orphan" models also need to be (re)visited
    - Summary needs to be composed (table ?)
- **Other topics ?**
