JACoW Team Meeting
Knoxville, TN
9 October 2007

- EPAC'08 Road-map (deadlines, major registration requirements)
- Registration Development model
 - What have been done already
 - What has to be done
 - How this has been done (technically)
- How to integrate the registration patches with the mainstream SPMS

- 14 Nov. – Opening of the Ind. Exhibit registration
- 12 Dec. – Opening of the delegate registration

- New Reg. Module as development of the present 1
 - no time to start it from scratch (first idea)
 - tests done with PHP partially successful – possible future development? AJAX/webservices?

- September 2007: alpha-version
- October 2007: beta-version
- Mid November 2007: production version 1.0
 - ready for EPAC'08 Industrial Exhibition Registration
 - probably not at full for delegate registration

- Better Visa handling
- Check-in (registrants that presents to the booth)
- Dedicated line for Reimbursements (w/ reports)
- Differentiate methods of payments (Industrial)
- Generation of the floor plans/booths

- Search Engine

- Explicit logical operators (AND / OR / NOT)
 - *e.g. Arrives on 23 June AND not comes to the reception*
- CSV export of search results
- Also based on registration time
 - *e.g. “Who registered paying by Credit Card in the period 1 Oct – 5 Oct?”*

- Hotel Handling Module (HHM)
 - Handle hotel deposits
 - Possibly dedicated deadline
 - Rooming list management
 - Voucher creation (PDF) + emailing
 - Hotel Management:
 - Hotels, Hotel Rooms, Room types , Hotel categories
 - Deposits (per room type, per hotel category)
 - Rooms free/occupied (graphically)

- Payments

- Payments reports:

- by date (period) / by payment type / with person details

- all the details for each payment type, by period

- *e.g.: 100EUR cash, of which 30€ for additional social dinner ticket, 70 for the fee*

- **Cost of payment** for every payment type (fixed - per operation - or percentage)

- PayPay, Credit Card, Bank Transfer

- Patches of patches
 - now at version 6.10.2
- Separate development
 - Alain Mauri & Ivan Andrian @ ELETTRA

- User Interface (CSS, partial)
- Registration Form Wizard
- Check-in
 - Search attendees for quick operations
- Multiple person search (OR operator only)
- Payment methods per registration page
- Smarter search w/receipts

- HHM – Hotel Handling Module
 - Administration already started
- Export to CSV
- Links between reg. pages (Exh. sponsoring delegates)
- Generation of the floor plans/booths
- Further steps:
 - more better and reports
 - dual currency

- Hotel categories
- Hotels
- Hotel Rooms
 - One bed, Two-beds, Two-beds plus, Suite
- Room types
 - (AKA "services", like single room, double with single use, double, triple, suite, etc.)
- Deposits (per room type, per hotel category)

Categories Hotels

Name	Category	SINGLE	DOUBLE	DOUBLE SINGLE USE
A	*	10	40	30
B	*	12	42	33
C	**	20	50	45
D	***	10	40	30

Category	SINGLE	DOUBLE	DOUBLE SINGLE USE
*	12	42	33
**	20	50	45
***	25	60	50

Prefs

Delegate	First	Second	Third
Ivan	A DSU	B DSU	C SIN

Delegate	Hotel	Service	Arriving Date	Leaving Date
Ivan	B	DSU	1 March 2008	16 May 2008

Rooming List

- Patch on Patch agreement
 - Current code freeze status
 - When *gamma* status reached:
 - Registration Module patches sent to Matt
- Testing
 - *Alpha*: developers
