

Session Program

26-30 Nov 2007

WLCG Service Reliability Workshop

WLCG Operations - What is Required to support LHC experiments?

CERN, IT Auditorium

Tuesday 27 November

09:00

WLCG Operations - What is Required to support LHC experiments?

Session | Location: CERN, IT Auditorium

09:00-09:40 **Inter-site Problem Determination**

09:40-10:40 **FTS transfers - debugging tools**

10:40-11:10 **coffee break**

11:10-11:40 **Mind the Gap**

11:40-12:20 **Requirements for WLCG management dashboards**

Speaker

John Shade

12:20-13:30 **lunch break**

13:30-15:30 **WLCG / EGEE / OSG operations and evolution in the coming years**

Subcontributions

Operations - the current model

Speaker

Nick Thackray

EGI - possible directions and scenarios - the EGI Design Study

Speaker

Laura Perini

Operations Review - hot topics from recent months

Speaker

Steve Traylen

WLCG Requirements - what do we need for 2008 and beyond?

Robust Services & 24x7

Speaker

Jamie Shiers

Effective PPS - how to make the PPS more effective for the experiments

Speaker

Nick Thackray

15:30-16:00 **coffee break**

16:00-17:30

Experiment Operations

Subcontributions

CMS Centers for Control, Monitoring, Offline Operations and Analysis

Speaker

Lucas Taylor

19:00
