

## **Session Program**

**26-30 Nov 2007**

### **WLCG Service Reliability Workshop**

#### ***Monitoring - What is Required to run Reliable Services?***

CERN, IT Auditorium

# Wednesday 28 November

09:00

## Monitoring - What is Required to run Reliable Services?

**Session** | **Location:** CERN, IT Auditorium

09:00-09:15

### Introduction

**Speaker**

Ian Neilson

09:15-09:35

### Management reporting requirements

**Speaker**

Alberto Aimar

09:35-09:55

### OSG Requirements

**Speaker**

Rob Quick

09:55-10:15

### Requirements from CIC Portal users

**Speaker**

Gilles Mathieu

10:15-10:30

### Coffee

10:30-10:50

### GOCDB Requirements

10:50-11:10

### EGEE Metrics Implementation Group

**Speaker**

Etienne Urbah

11:10-11:30

### Site Monitoring Prototype Feedback

**Speaker**

Emir Imamagic

11:30-12:00

### Discussion

12:00-13:00

### lunch break

13:00-13:20

### Service availability calculation methods - now and the future

**Speaker**

Piotr Nyczyk

13:20-13:40

### Security for Grid Sites

**Speaker**

Louis PONCET

13:40-14:00

### Use cases for GridMap visualization

**Speaker**

Max Boehm

14:00-14:20

**Models for monitoring****Speaker**

James Casey

14:20-14:40

**coffee break**

14:40-16:10

**Experiment Critical Services and Monitoring - What's Missing for CCRC'08 (and beyond)?****Speaker**

Julia Andreeva

**Subcontributions****Critical Services and Monitoring - ALICE****Speaker**

Catalin Cirstoiu

**Critical Services and Monitoring - ATLAS****Critical Services and Monitoring - CMS****Speaker**

Andrea Sciaba'

**Critical Services and Monitoring - LHCb****Speaker**

Philippe Charpentier

16:10-16:40

**Prioritization of requirements raised during the day**

16:40-17:00

**LHC VO User Support evolution update****Speaker**

Maria Dimou

17:00-17:10

**Mid-workshop checkpoint****Speaker**

Jamie Shiers

18:00
