

GDB

Introduction

John Gordon, STFC-RAL
GDB meeting @CERN February 6th, 2007

From the last meeting

GDB

- **Minutes** of the December meeting on the GDB wiki page
 - <https://twiki.cern.ch/twiki/bin/view/LCG/GridDeploymentBoard>

GDB

Membership

- Peter Kunzst, deputy representative for Switzerland
 - And representing their Tier2s

Actions From Previous Meetings

- **Action 0711-2: JG to take advice on who to ask (JSPG) about VOMS requirements – wait for authorisation review**
- **Action 0711-3: glxec-on-WNc to be field tested by some sysadmins.**
- **Action 0711-6 – JG to ask/inform/request sites about testing glxec with the various batch systems**
- **0712-3 Follow up concerns about site-GGUS improvement with ROC managers. What is the process for using savannah vs GGUS tickets and finding out their status John Gordon**
- **0712-4 Compile and report on list of SAM/monitoring priorities at February meeting**
- **0712-5 Investigate holding the June GDB in Barcelona in conjunction with OGF John Gordon**
- **0712-7 Schedule follow-up (GDB) discussion on experiment user training on the topic of local access to data on SEs [Are there common solutions that can be shared?] John Gordon**
- **08-01-01 – IB, JS, JG to discuss mandate for GSSD**

Since the Previous Meeting

GDB

- **CCRC Workshop**
- **EGEE AAM, Sofia**
- **EGI-DS workshop, CERN**

GDB meetings in 2008

GDB

- Second Wednesday of each month
- **Plan two meetings outside CERN**
- CCRC review in March at CERN
- May Whitsun week
- June clash with Euro2008
- July clash with EGEE II Final Review

-
- March 5
- April 2
- May 14
- **June 11**

- July 9
- August 13
- September 10
- October 8
- November 12
- December 10

GDB

Video Conferencing

- VRVS is no longer supported
- This is the first meeting using EVO
 - Is it successful?
- Meetings in WLCG Community

GDB

SE – Catalogue Consistency

- All VOs have a problem with maintaining consistency between the replicas registered in their catalogues and the physical files on SEs.
- Some VOs have their own solutions
- Querying LFC and/or SEs file at a time is very inefficient, affects the performance for others, and will not scale.
- We should discuss the scope for efficient methods, possibly in common.
- Bring together VOs and SE implementors at a future meeting

GDB

Workshops

- **EGI-DS Workshop, Rome** March 13-14
- **3rd WLCG Collaboration Workshop** April 21-25 2008
(CERN)
- **CCRC Workshop** CERN, June 12-13th 2008
- **4th WLCG Collaboration Workshop** March 21-22 2009
Prague, before CHEP09

GDB

Security Policies

- New Drafts
- Multi-User Pilot Jobs
- draft (V0.4a) <https://edms.cern.ch/document/855383/1>
- Traceability and Logging
- draft (V1.7a) <https://edms.cern.ch/document/428037/2>

GDB

Pilot Jobs

- At its meeting earlier this week, JSPG produced a new draft of the security policy document on multi-user pilot jobs.
- This draft (V0.4a) may be found at <https://edms.cern.ch/document/855383/1>
- The important change was that this policy now refers to the new policy on Traceability and Logging).
- JSPG is seeking comments on this current draft. Please do so by the end of next week.

GDB

Today

- Authorisation
- Accounting
- Traceability and Logging
- Tapes
- Pilot Jobs
- 64 bit
- Client Rollout
- CCRC
- Scrutiny Group

GDB

Topics for March Meeting

- **CPU Efficiency**
- **Benchmarking**
- **CCRC**
- **OPN**
- **Pilot Jobs**
- **GLUE?**
- **Client rollout**
- **Catalogue consistency**
- **SL5/6**

- **Suggestions?**

GDB

Postscript

- What actions have arisen today that should result in a presentation to a future meeting?
- What issues have arisen that require someone to return to the next meeting with a status report?
- What topics would the meeting like discussed at future meetings?
