Introduction

John Gordon, STFC-RAL

GDB meeting @CERN March 5th, 20078

Membership

- No changes notified

Since the Previous Meeting

- **CCRC Post Mortem**
- **EGEE User Forum**
- **EGI-DS workshop, CERN**
- **EGI-DS Face to Face**

GDB meetings in 2008

- Second Wednesday of each month
- Plan two meetings outside CERN
- May Whitsun week
- June clash with Euro2008
- July clash with EGEE II Final Review

-
- April 2
- May 14
- June 11

- July 9
- August 13
- September 10
- October 8
- November 12
- December 10

Video Conferencing

- VRVS is no longer supported
- This is the second meeting using EVO
  - Plus CCRC and others
  - Commit to it now

Workshops

- **EGI-DS Workshop, Rome** March 13-14
- **3rd WLCG Collaboration Workshop** April 21-25 2008 (CERN)
- **CCRC Workshop** CERN, June 12-13th 2008
- **4th WLCG Collaboration Workshop** March 21-22 2009 Prague, before CHEP09

Upcoming Issues

- SAM Critical Tests – do they achieve what we need?

- WN Client Rollout – multiple versions under central control

- Publishing power figures for a cluster.
    - GLUE homogenous sub-clusters

Security Policies

- Three JSPG policy documents currently under "public comment"...

Approval of Certification Authorities
Multi-User Pilot Jobs
Traceability and Logging

- A (small) number of comments via e-mail and from Romain's presentation at the Feb GDB. Also had comments from OSG people this week in Chapel Hill.
- Most of the comments are addressing wording and ease of understanding and are not contentious. There has been no complaint about the general thrust of the Traceability and Logging or the MUPJ policy.
- The biggest issue is that EGEE OSCT has proposed and EGEE SCG has agreed that audit logs should be kept for 180 days (well at least the core information) rather than 90 days.
- I will produce new versions of the documents in the next few days. Then allow a little time for JSPG agreement/discussion and then we will forward for approval to WLCG and EGEE.

Today

- CPU Efficiency
- Tape Efficiency
- Pilot Jobs
- Job priorities
- CCRC
- SRMv2.2
- VOMS

Topics for March Meeting

- **Benchmarking**
- **OPN**
- **Pilot Jobs**
- **GLUE?**
- **Client rollout**
- **Security Policies**
- **Worker Node Working Group**
- **Catalogue consistency**

- **Suggestions?**

Postscript

- What actions have arisen today that should result in a presentation to a future meeting?

- What issues have arisen that require someone to return to the next meeting with a status report?

- What topics would the meeting like discussed at future meetings?
