

GDB

Experiment Summary

John Gordon, STFC-RAL

GDB meeting @CERN October 8th, 2008

LHCb

GDB

- Tier2s mainly for simulation
- Thinking about analysis
 - Trial sites

CMS

GDB

- Tier2 Coordinators
 - Do all T2s know (at least one of) them?
- Analysis at 'local' Tier2
- Savannah usability questioned by sites.

ATLAS

GDB

- Very hierarchical model
- (co-located Tier2s?)
- GGUS site tickets
- Multi-user pilot jobs in Panda?

Alice

GDB

- Mandatory VOBox

GDB

Summary

- I see no insurmountable differences
- Most discussion between experiment experts, not sites.
- No new issues emerged.
