

# Current status of CREAM CE

---

- **CREAM CE 3.1.3-0 in the production middleware stack since 15<sup>th</sup> October, however:**
  - No WMS-ICE in production
    - UPDATE: In fact the code for this came with the last WMS update that went into the PPS but the patch failed and is back with the developers
  - No Condor-G submission path
    - UPDATE: The Condor team have an "early beta" that they are currently testing
  - Proxy renewal mechanism not acceptable to sites
    - Patch to implement the same proxy renewal as is in the LCG-CE has not yet been passed to certification
