

# Benchmarking

John Gordon

GDB September 2008

# Status

- HEPix Group Reported
  - But still progressing
  - No formal document
- Management Board
  - Accepted HEPiX Group recommendation
  - But still open issues

# WLCG Issues

- Plan a small working group
  - To be effective, not exclusive
- Chaired by Gonzalo Merino
  - Manfred Alef, Helge Meinhard, Michelle Michelotto + OSG?
  - Nick Brook and Hubert Degaudenzi, Marie-Christine Sawley , Alessandro De Salvo and Franco Brasolin , Peter Hristov.

# Mandate

- The group should at least look at:-
  - agreeing the exact conditions under which the chosen benchmark will be run.
  - producing an understandable paper for wider circulation;
  - producing a proposal for evaluating existing capacity
  - producing a proposal for translation of requirements

# Issues

- November CRRB is close
- Sites to buy benchmark and run themselves
- HEPiX Group question whether they have converged.
