

ISOLDE Workshop and Users meeting 2007/2008

Tuesday, 18 December 2007

Solid State Physics - 503/1-001 - Council Chamber (11:10 - 12:45)

-Conveners: Peter Butler

time	[id] title	presenter
11:10	[50] Soft-landing of Radioactive Probes on Clean Metal Surfaces and at Interfaces	ZEITZ, W.-D.
11:30	[17] First results from electron emission channeling on-line experiments	Dr WAHL, Ulrich
11:45	[13] Lattice location of implanted ions and characterization of implantation-induced damage in Ge	DECOSTER, Stefan
12:00	[22] Mössbauer studies of dilute magnetic semiconductors (IS-443)	Dr MANTOVAN, Roberto
12:15	[36] Magnetoresistive materials: hyperfine studies using radioactive isotopes.	AMARAL, Vitor
