

EMI Standard Support Matrix

MJRA1.18

5th EMI AHM, Budapest

- MJRA1.18 - Transparent use of open standards in the EMI component ecosystem
 - Collect the status of the standardization support from all of the EMI components
 - Original plan:
 - <http://www.eu-emi.eu/standardization-matrix>
 - Current status:
 - https://docs.google.com/spreadsheets/cc?key=0As6_BYzGPvArdFpzWGgwc3djLTVSYXIESV9VV0xzRFE

- For each EMI component that listed on the matrix, please provide a short description about the status of current adoption status of the agreed standardization, i.e.:
 - Link to the standardization
 - Explanation if there is any addition or modification
 - Link to the technical/architecture documentation
 - Has the standardization been completely supported, if not yet, to what extend has it been? E.g. 50% 80% 100%? Some more detailed description is recommended, such as the missing pieces of the specification, only support on the server/client.

- A google doc will be created for each product to feedback the content
- Please each PT leader provide a *dedicated contact person* for each component listed

- Proposed deadline to submit to project office: Nov. 30
- Individual contributions: Nov. 20
- Workable documentation (google doc): Nov. 2
