

Session Program

23-28 Sept 2007

Vertex 2007

Poster session

Lake Placid, Crowne Plaza Hotel, Olympic 3-4
New York, USA

Monday 24 September

18:00

Poster session

Poster Session | **Location:** Lake Placid, Crowne Plaza Hotel, Olympic 3-4, New York, USA

Continuous Acquisition Pixel detectors for BELLE

Speaker

Herbert Hoedlmoser

Vacuum Tests of LHCb Vertex Locator Sensors

Speaker

Dr Gwenaelle Lefeuvre

Telescope for Radiation Hard Silicon Studies

Speaker

Dr Regina Demina

Development of CMOS monolithic pixel sensors with in-pixel correlated double sampling and fast readout

Speaker

Dr Devis Contarato

Problems during the Production of the Silicon Strip Detector Modules for the CMS Tracker End Caps

Speaker

Stephan Haensel

The Forward Silicon Vertex Tracker Upgrade for the PHENIX Experiment at RHIC

Speaker

Mr Jon Kapustinsky

The CDF RUN II Silicon Detector: Aging Studies

Speaker

Dr Ignacio Redondo-Fernandez

SOI monolithic pixel detector R&D in a 0.15um technology

Speaker

Dr Hideki Miyake

Construction of the CMS Forward Pixel Detector at Fermilab

Speaker

Dr Ricardo Vasquez

Development of Vertex Detector Mechanical Designs for the ILC

Speaker

William Cooper

19:00
