

Strangeness in Quark Matter

Friday, 26 July 2013

Quarkonia/Heavy Flavour - Arts Large Lecture Theatre - Room 120 (14:00 - 16:00)

time	[id] title	presenter
14:00	[88] Quarkonia production and suppression in heavy ion collisions at STAR	KIKOLA, Daniel
14:20	[98] Free energy versus internal energy potential for heavy quark systems at finite temperature	LEE, Su Hounng
14:40	[106] Heavy quark quenching from RHIC to LHC: MC@HQ generator compared to experiements	GOSSIAUX, Pol
15:00	[107] Jet suppression at LHC: theory vs. experiment	Dr DJORDJEVIC, Magdalena
15:20	[110] Semi-classical approach to J/psi suppression in high energy heavy-ion collisions	Mr KATZ, Roland
15:40	[79] Studies of Onia and Strangeness Production in Proton-proton Collisions at LHCb	BROOK, Nicholas
