

# Strangeness in Quark Matter

## Friday, 26 July 2013

**Hypernuclei - Arts Lecture Room 3 - Room 127 (16:30 - 17:50)**

time	[id] title	presenter
16:30	[129] Recent results on ultra-peripheral Pb-Pb and p-Pb collisions at the ALICE experiment	TAPIA TAKAKI, Daniel
16:50	[45] Production of antinuclei and hypernuclei in a relativistic heavy-ion collisions	Prof. PAL, Subrata
17:10	[70] Production of hypernuclei in Pb-Pb collisions at $\sqrt{s_{NN}} = 2.76$ TeV with ALICE at the LHC	LEA, Ramona
17:30	[77] Search for exotic hyper-matter and measurement of nuclei with ALICE at the LHC	DOENIGUS, Benjamin
