

Session Program

21-27 Jul 2013

Strangeness in Quark Matter

Plenary 11

The University of Birmingham
Birmingham B15 2TT United Kingdom

Friday 26 July

11:00

Plenary 11

Session |

Location: The University of Birmingham, Arts Large Lecture Theatre - Room 120, Birmingham B15 2TT United Kingdom |

Convener: Nu Xu

11:00-11:30

Measurement of azimuthal anisotropy of hadrons in Au+Au collisions from the beam energy scan program by the PHENIX experiment at RHIC

Speaker

Yoshimasa Ikeda

11:30-12:00

Status and Physics Opportunities of STAR Heavy Flavor Tracker and Muon Telescope Detector Upgrades

Speaker

Dr Hao Qiu

12:00-12:30

Strangeness balance in HIC

Speaker

Evgeni Kolomeitsev

12:30

17:50

Plenary 11: Plenary 11

Session | **Location:** The University of Birmingham, Arts Large Lecture Theatre - Room 120

18:50
