

NCM filesystems component

Monday, October 29, 2007 4:45 PM (10 minutes)

<p>During last workshop, Xen discussion raised an interesting issue: can Quattor create block devices and export them for Xen virtual machines?</p>

<p>The `filesystems` component addresses this issue, and some other improvements asked on Savannah</p>

Primary author: Mr MUÑOZ MEJÍAS, Luis Fernando (Facultad de Ciencias - Universidad Autonoma de Madrid)

Presenter: Mr MUÑOZ MEJÍAS, Luis Fernando (Facultad de Ciencias - Universidad Autonoma de Madrid)

Session Classification: Block device and filesystem layout changes
