

CERN Colloquium

SPEAKER: Savas Dimopoulos (Stanford & CERN)

TITLE: **"What has the LHC done to Theory?"**

DATE: Thu 20/09/2012 16:30

PLACE: Main Auditorium

ABSTRACT

Physics is at a crossroad that leads either to Naturalness or the Multiverse. We discuss the implications of current LHC results on this dichotomy, as well as expectations for the next five years.

Organised by: Ignatios Antoniadis & Gian Giudice/PH-TH.....**Tea and coffee will be served at 16h00**
