*Today*

# About me (in 2008)

- Bucharest, Romania
- Software Engineer
- B.Sc. in Computer Science
- M.Sc. in Project Management (on-going)
  
- In 2008:
  - recently graduated
  - balancing between industry and academia
  
- Goals:
  - Improve my soft skills
  - Work with state of the art technologies
  - Extend my personal network
  - Discover the world

## ACEOLE Fellow @ 1<sup>st</sup> of Nov 2008

- ACEOLE WP 5
- Early Stage Researcher
- 3 years
  
- LHC/ ATLAS Experiment
- TDAQ Networking Team
  
- Researcher
- Software Developer
- Networking Expert

## **On-the-job Training**

Hands-on, DAQ, State of the art technologies, Paper Review etc.

## **Formal Training**

Spectrum, Force 10 OS, Computer Architectures, Performance Tuning etc

## **Conferences and Workshops**

NANOG; CHEP 2009, 2010; ICALEPS; Intel Openlab

## **Complementary Training**

Making Presentations; French Course; CV & Interview Preparation; Writing EU Proposals; Leaders in Science;

## 4-month Secondment @ HP Networking

Technical Training, Hands-on, Soft skills, Life Experience, Networking

- **State of the art technologies**
- **Product-oriented mindset**
- **Highly competitive and professional team**
- **A life & work experience**

**SNMP Performance Monitoring**

**Improving monitoring infrastructure  
availability**

**Integrated system for network monitoring**

**Centralized data-store for the network  
architecture, events and real-time status**

**Event-processing and Expert Systems**

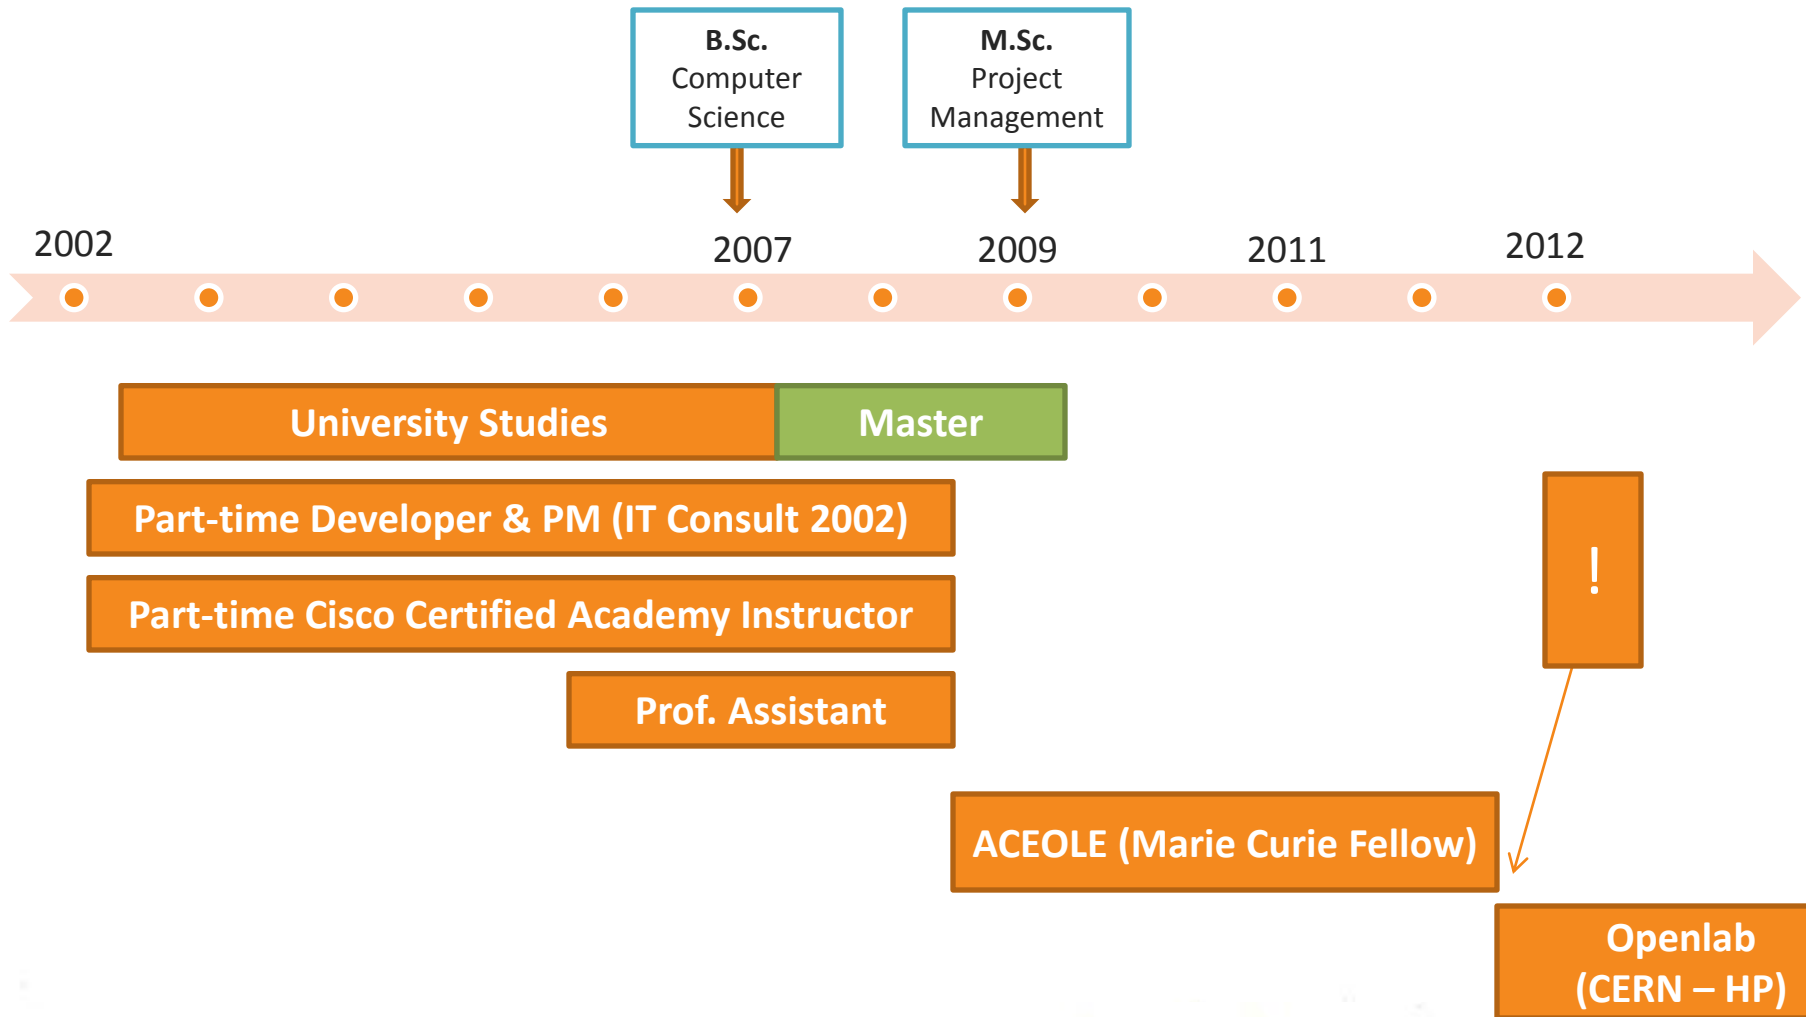

**Software Defined Networking**

## Success factors:

- Passionate Supervisors (Thank You Brian Martin !)
- Visionary Leaders (Robert & Seamus)
- Flexibility
- Great Environment (CERN)
- So smooth administrative procedures (Evelyne)
- Awesome Researchers

# Personal Career

# CERN openlab in a nutshell

- A science – industry partnership to drive R&D and innovation
- Started in 2002, now in 10<sup>th</sup> year
- Evaluate state-of-the-art technologies in a challenging environment and improve them
- Test in a research environment today what will be used in industry tomorrow
- Training, Dissemination and Outreach
- [www.cern.ch/openlab](http://www.cern.ch/openlab)
