

# **CHIPP PhD Winter School 2013**

**Sunday 20 January 2013 - Friday 25 January 2013**

**Hotel Schweizerhof**

## **Scientific Programme**

The school program includes lectures on accelerator and non-accelerator particle physics. A session for student presentations is also foreseen. Discussion sessions between lecturers and students will take place every evening, to deepen the topics presented during the day.

List of topics:

Particle detectors

LHC physics

Neutrinos

Astroparticle physics

Flavour physics
