

# AIDA

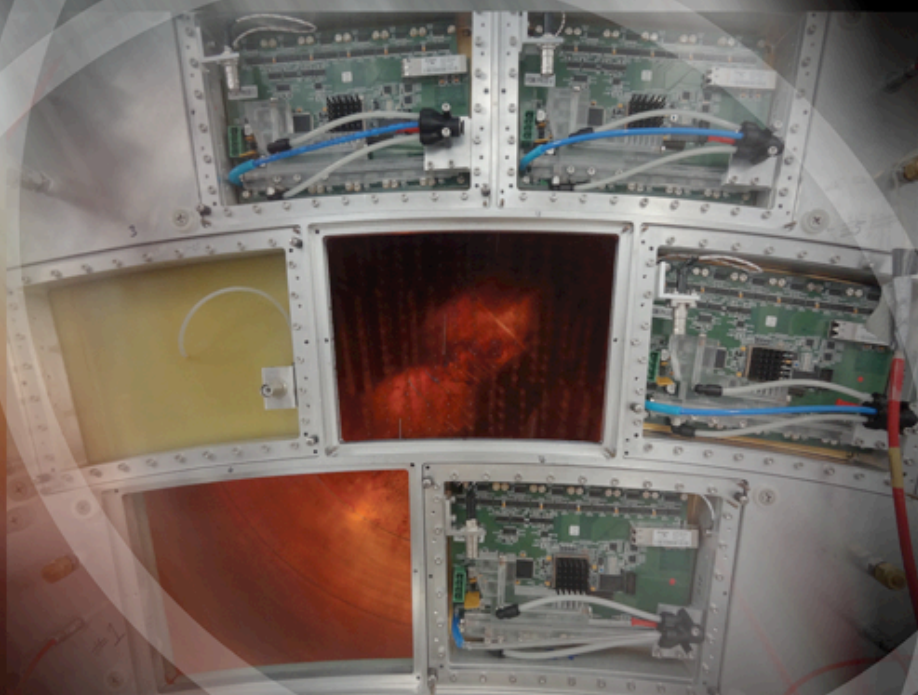

# Gaseous Detectors in HEP

Negative + Color

The AIDA FP7 project is organizing a special tutorial session on gaseous detectors for students and post-docs.

Limited support for participants is available.  
Attendance is free but registration is required.  
For more details and registration: <http://cern.ch/aida>

**April 9<sup>th</sup>, 2013, 14:30**  
**Laboratori Nazionali di Frascati dell'INFN**  
**Touschek Auditorium**

## PROGRAMME

Simulation of gas detectors and related physical processes (Rob Veenhof - CERN)  
Signal formation in detectors (Werner Riegler - CERN)  
Front end electronics (Flavio Loddo - INFN Bari)

AIDA (Advanced European Infrastructures for Detectors at Accelerators)  
is co-funded by the European Commission within the 7<sup>th</sup> Framework  
Programme Capacities, Grant Agreement 262025.

## LOCAL ORGANIZING COMMITTEE

Giovanni Bencivenni INFN LNF  
Stefano Bianco INFN LNF  
Maria Rita Ferrazza INFN LNF  
Luca Foggetta INFN LNF  
Lucia Lilli INFN Pisa  
Giovanni Mazzitelli INFN LNF

The Tutorial is partially supported by LNF Seminars Committee.
