

Dataset submission to arXiv by month

arXiv and datasets

- Continue to see modest use of arXiv for deposit of datasets
- Current totals (as of 12 Nov 2012):
 - 581 articles with Data Conservancy data
 - 532 articles with Ancillary data
- NSF Data Conservancy collaboration limps along
- We don't yet have a good sense of the characteristics of the datasets deposited via arXiv
- We will consider depositing DOIs for datasets
