

LHCP 2013 - First Large Hadron Collider Physics Conference

Tuesday 14 May 2013

Parallel: Heavy Flavour 1 (14:30 - 16:30)

-Conveners: Vincenzo Chiochia; Andrey GOLUTVIN; Joaquim Matias

time	[id] title	presenter
14:30	[337] On lepton flavor universality in B decays	KAMENIK, Jernej
14:45	[338] Measurement of gamma from B->DK decays at LHCb	SCHLUPP, Maximilian
15:00	[339] Studies of charmless B decays at LHCb	SANTAMARINA RIOS, Cibran
15:15	[341] New Physics searches in heavy flavors in ATLAS	LEONTSINIS, Stefanos
15:30	[342] Quarkonium Production at LHCb	PEPE-ALTARELLI, Monica
15:45	[343] Heavy-flavour measurements in proton-proton collisions with ALICE at the LHC	FASEL, Markus
16:00	[400] Quarkonium production and polarization at CMS	LOURENCO, Carlos
