

Low x workshop

Thursday, 30 August 2007

Saturation session (14:30 - 18:30)

time	[id] title	presenter
14:30	[20] Overview of saturation	HATTA, Yoshitaka
15:00	[21] Summing pomeron in dipole approach	LEVIN, Eugene
15:20	[22] On possible implications of gluon number fluctuations in DIS data	KOZLOV, Michael
15:40	[23] High energy evolution of hadronic wavefunction	LUBLINSKY, Michael
16:00	[24] Asymptotics of traveling waves with running coupling and fluctuations	BEUF, Guillaume
16:20	Coffee break	
16:50	[25] Evolution with pomeron loops and running coupling effects	SOYEZ, Gregory
17:10	[26] Discussion session : saturation	J. FELTESSE, G. SOYEZ, B. BADELEK
