# Topics for Nov. 1 meeting

- We will have two hours in the general RPSWG meeting
- Topics we want to focus on:
  - L1 tracking performance
  - Electron triggering
  - Muon triggering
  - Tau studies
  - Experience from the HLT
    - Electrons
    - Muons
    - Taus
    - Jets/vertexing
- We would like to hear from people that has worked on this about the status and plans
- Please let us know if you want to present something (we will contact the 'usual suspects' in the next few days)

# HN Forum

- Since this was left out in the first meeting we just wanted to make clear that the HN forum the Track Trigger Integration group will be using is: **SLHC Trigger Simulation**
