The ARC SDK is packaged as nordugrid-arc-devel, nordugrid-arc-python and nordugrid-arc-java and is available in many standard Linux repositories (EPEL, Debian, Ubuntu) or from http://download.nordugrid.org/

Code examples and SDK documentation is available at http://www.nordugrid.org/documents/code/sdk/

ARC Storage Explorer: A Grid data management GUI using the ARC Python SDK

The ARC SDK is a toolbox for distributed computing and data applications.

The simple way for your app to use the Grid
