

AID box

☐ Goals

- ✓ We need to refine our goals in order to establish the exact full required complexity

☐ Ladder production

- ✓ Needed: mini 6, then 8 for 4 stations + spares

☐ Mechanics

- ✓ Fixture of ladders to stage drawing in Oxford but not yet fabricated...
- ✓ More stages to buy? Depends on available money
- ✓ Full box : no design existing

☐ DAQ

- ✓ OK through PLUME
- ✓ Production of aux and power boards -> not before fall 2013

☐ Cooling

- ✓ Who could study air-cooling efficiency with mechanical stability?

☐ Decision

- ✓ No demand from other pixel detectors to be included
- ✓ Consider several milestones : from simple single-stage to complex multi-stages box
