

German-Egyptian School of Particle Physics

24 – 28 February 2013, Cairo (Egypt)

The school is aimed at PhD students and young Postdocs who work in high energy physics with a focus on LHC phenomenology, especially in models beyond the SM.

It comprises of lectures and tutorials in:

- SM and BSM physics
- Collider studies
- Computer tools

- CalcHEP
- WHIZARD
- SARAH
- SPheno

- Feynarts/Formcalc
- HiggsBounds/HiggsSignals
- LHC-FASER
- SUSY-toolbox/HepMDB

Registration deadline is **31 January 2013**. More information, contact addresses and registration forms are given on the website.

Organising committee: **Lorenzo Basso** (Freiburg), **Sharif El Gammal** (Zewail City), **Shaaban Khalil** (Zewail City), **Stefan Liebler** (Wuppertal), **Florian Staub** (Bonn).
