## **Bs decays at Belle**

*Saturday 20 July 2013 12:00 (15 minutes)*

We report result of search for  $B_s^0 \rightarrow D_{s0}^{*0}(2317)^- \pi^+$  decay using a  $121.4 \text{ fb}^{-1}$  data sample collected at the  $\Upsilon(5S)$  resonance with the Belle detector at the KEKB asymmetric  $e^+e^-$  collider.
