

Installation, Commissioning and Performance of the CMS Electromagnetic Calorimeter Electronics

Wednesday 17 September 2008 12:40 (25 minutes)

This talk reviews the CMS high resolution electromagnetic calorimeter (ECAL) on- and off-detector electronics and its commissioning within CMS in-situ. In particular it presents results on electronics noise, monitoring, dead channels and performance, together with the experience gained during installation. The talk will also include results from the first months of ECAL operation during the commissioning of LHC.

Author: CARTIGLIA, Nicolo (Univ. + INFN)

Presenter: CARTIGLIA, Nicolo (Univ. + INFN)

Session Classification: Parallel Session A3 - Installation & Commissioning
