

TWEPP-08 Topical Workshop on Electronics for Particle Physics

Thursday 18 September 2008

TOPICAL 1 - LHC Upgrades (11:00 - 13:05)

time	[id] title	presenter
11:00	[85] SLHC Upgrade Plans for the ATLAS Pixel Detector.	SICHO, Petr
11:25	[100] Design studies of a low power serial data link for a possible upgrade of the CMS pixel detector	Mr MEIER, Beat
11:50	[81] Architecture of the readout electronics for the ATLAS upgraded tracker	FARTHOUAT, Philippe
12:15	[77] CMS microstrip tracker readout at the SLHC	RAYMOND, Mark
12:40	[25] Upgrade of the ATLAS Monitored Drift Tube Detector for the SLHC	RICHTER, Robert
