

HEPiX Spring 2013 Workshop

Contribution ID: 71

Type: **Presentation**

Report from CMDBuild BoF session

Friday, April 19, 2013 10:05 AM (15 minutes)

In the framework of the “business continuity track” at Hepix 2013 spring workshop, we had the opportunity to discuss with the representatives of the Tecnoteca company which supports the cmdbuild software. We had a free discussion for this first face-to-face meeting rather than a organized session. The context of the discussion kept in the technical level. We are going present an indicative list of our comments and points of this discussion.
