

HEPiX Spring 2013 Workshop

Contribution ID: 11

Type: **Presentation**

Security update

Wednesday 17 April 2013 10:15 (25 minutes)

This presentation provides an update of the security landscape since the last meeting. It describes the main vectors of compromises in the academic community and presents interesting recent attacks. It also covers security risks management in general, as well as the security aspects of the current hot topics in computing, for example identity federation and virtualisation.
