

# Phenomenology 2013 Symposium

## Monday, 6 May 2013

### SM - Benedum Hall G26 (16:30 - 18:30)

-Conveners: xiaohui liu

time	[id] title	presenter
16:30	[181] Heavy-flavour production at central rapidity in pp collisions at the LHC with ALICE	ERDAL, Hege Austrheim
16:45	[106] The NRQED Lagrangian at order $1/M^4$	LEE, Gabriel
17:00	[28] Theoretical motivations for measuring the ratios of W and Z cross sections at large boson transverse momentum	Dr MALIK, Sarah
17:15	[14] QCD and EW measurements in the forward region	BARTER, William James
17:30	[97] Recent electroweak results from ATLAS	KANETI, Steven Adam
17:45	[54] ATLAS measurements of vector boson production	CHEKANOV, Sergei
18:00	[185] Intermediate State Contributions to the Rare Decay $D^0$ to $\mu^+ \mu^-$	HEALEY, Kristopher
18:15	[210] Jet counting and QCD scaling patterns	SCHICHTEL, Peter
