

Working group on the interplay of high p_T and flavour physics

Next meeting:

CERN-TH institute on "[Flavour as a Window to New Physics at the LHC](#)"

Date: 5 May - 13 June

The Institute will include one week for the interplay issue

9-13 June 2008

Next steps

<https://twiki.cern.ch/twiki/bin/view/Main/ColliderAndFlavour>

Twiki page should serve as an information platform

New and existing literature will be documented,
open questions identified at the kick-off meeting

Improve information flow between experimentalists and theorists.

Experimental collaborations are interested in concrete common projects.

Please subscribe for the email list of the working group!
