

# TeV Particle Astrophysics 2013

## Tuesday, 27 August 2013

### Ultra-high-energy messengers - Huntington (14:00 - 16:00)

-Conveners: Markus Ahlers; Ignacio Taboada

time	[id] title	presenter
14:00	[29] Extreme Energy Particles with JEM-EUSO	OLINTO, Angela
14:30	[97] Measuring Potential Noise Backgrounds for the Telescope Array Radar (TARA) near Long Ridge, UT	HANSON, Jordan
15:00	[30] The development of remote receiver stations for TARA	KUNWAR, Samridha
15:30	[31] Anisotropy studies with the Pierre Auger Observatory	MOSTAFA, Miguel

### Ultra-high-energy messengers - Huntington (16:30 - 18:30)

-Conveners: Markus Ahlers; Ignacio Taboada

time	[id] title	presenter
16:30	[32] Mass composition studies with Pierre Auger Observatory	PORCELLI, Alessio
17:00	[33] Measurements of the muon content of air showers and search for ultra-high energy neutrinos and photons at the Pierre Auger Observatory	VALINO, Ines
17:30	[34] Probing cosmic-ray origin with the cosmogenic neutrino searches with IceCube	ISHIHARA, Aya
18:00	[98] Neutrino transport in accretion disks	YUAN, Ye-Fei
