

Black hole horizons and quantum information

Thursday, 21 March 2013 - Friday, 29 March 2013

CERN

Scientific Programme

The workshop will bring together leading quantum gravity experts to discuss these issues, with a light schedule of seminars leaving plenty of time for informal discussions. Thur-Fri 21-22 will have a more sustained schedule of talks. Note that a session has been added on Sat 23 morning. The announced duration of the talks is 1h each but this includes discussion time, speakers should aim to talk no more than 40 minutes.
