

# Blois2013: 25th Rencontres de Blois on "Particle Physics and Cosmology"

## Wednesday, 29 May 2013

### Astro + Cosmo II: Parallel Session (16:30 - 19:50)

time	[id] title	presenter
16:30	[61] Probing the extragalactic background light with H.E.S.S.	BITEAU, Jonathan
16:50	[62] Results from Planck	PERDEREAU, Olivier
17:10	[73] Results from the Atacama Cosmology Telescope	LOUIS, Thibaut
17:30	[142] Inflation and primordial non-gaussianities	BARTOLO, Nicola
17:50	[63] Conversion of gravitons into photons in primordial magnetic fields	EJLLI, Damian
18:10	[74] Results from SN-factory	CHOTARD, Nicolas
18:30	[77] Final type Ia supernova spectroscopic sample of the Supernova Legacy Survey (SNLS)	CELLIER-HOLZEM, Flora
18:50	[64] Cosmological Constraints from SNLS/SDSS: Pushing down the Systematics	BETOULE, Marc
19:10	[75] First results from The Dark Energy Survey	DIETRICH, Jörg
19:30	[76] Cosmology with galaxy clusters	REIPRICH, Thomas
