Motivation

- The discovery of Higgs like particle is a milestone in the history of HEP.
- Chinese clusters including CMS and ATLAS made a lot of contribution for the discovery.
- U.S., Europe(e.g. France), Japan, etc. held the international Higgs workshop in the past months.
- A workshop is also relevant for the discussion of Higgs factory (HF).

Main topics for today's discussion

- The members of the international and local committee.
- Time : In August, Before or after the Summer school in IHEP.
- Location : ~100 is fine for IHEP.
- Funding : NSFC can support up to 10 K RMB.
- Format : One section for Higgs Factory.
- Other issues : to be discussed.
