

Freiburg status report on 3D detectors

Tuesday 13 November 2007 10:40 (20 minutes)

A summary will be given on recent Freiburg activities with emphasis on tests of 3D STC detectors. We have tested a module with two Trento-made 3Ds, irradiated up 10^{15} Neq.

Primary author: PAHN, Gregor (Fakultaet fuer Physik - Albert-Ludwigs-Universitaet Freiburg)

Presenter: PAHN, Gregor (Fakultaet fuer Physik - Albert-Ludwigs-Universitaet Freiburg)

Session Classification: 3D detectors & Simulations & New structures

Track Classification: 3D Detectors and New Structures
