

Conclusions from the IB meeting

Wolfgang Lohmann, BTU and DESY

The IB elected M. Idzik to be the deputy spokesperson

The IB agreed to elect soon an 'chairperson of the IB'

The IB will prepare a letter to the DESY directorate to ensure support for FCAL in the coming funding period

Written document, general structure:

- Introduction, Mission (WL, HA)
- LumiCal design studies (HA, BP)
- BeamCal design studies (WL,..)

- Prototyping and testbeam
 - Sensors (Wojtek, Konstantin)
 - ASICs (Angel, Marek)
 - Integration and DAQ (Szymon, Hans, Itamar)
 - Laser alignment (Woitek, Leszek)
 - Testbeam results (itamar, Veta)
 - irradiation facility (Bruce)

Luminosity spectrum (Andre)

Luminosity systematics (Ivanka)

Future studies

Editor: Aharon,

CLIC will have a pixel testbeam in August at DESY. A few people from FCAL may participate

We still hope to get a few days in August to operate the telescope with a simple detector

We will have at least one week in January to make a study with a few sensor planes.

Important Dates:

- ECFA workshop May 2013 (DESY)
- Snowmass (APS) June
- LCWS 2013 in Tokyo (Oct./Nov.)

next meeting @ DESY

Thanks to the organisers

many thanks to Leszek, Beata, Krzysztof for the hospitality,
all the organisational work, also to all the people who
supported this meeting

Many thanks to all speaker for preparing the interesting talks
