

8th "Trento" Workshop on Advanced Silicon Radiation Detectors (3D and p-type)

Tuesday, 19 February 2013

CMOS Sensors and Electronics - "Stringa" Conference Hall (15:00 - 16:20)

-Conveners: Nanni Darbo

time	[id] title	presenter
15:00	[18] First experience with radiation-hard active sensors in 180 nm HV CMOS technology	FEIGL, Simon
15:20	[21] A thin and fully depleted monolithic pixel sensor in SOI technology	MATTIAZZO, Serena
15:40	[40] Optimization of timing performance of large-area FBK SiPMs in the scintillation light readout	Dr GOLLA, Alberto
16:00	[38] Integrated Circuit Design for Time-of-Flight PET with Silicon Photomultiplier	Dr ROLO, Manuel Dionisio
