

Dear Participant,

We would like to invite you to the first ATLAB Annual Assembly; EDUSAFE ITN and TALENT ITN joint technology workshop at CERN on February 18, 2013.

The purpose of the Assembly is to share information with and across ATLAB partners related to the ATLAS upgrade R&D plans and initiatives, as well as on the progress related to the funded projects under the ATLAB framework, notably EDUSAFE and TALENT. We wish to mix ATLAS researchers with the young scientists and students as well as with the industrial partners involved in the funded ATLAB projects. The meeting is informal by nature and full in line with the agreed outreach activities defined by the projects separately.

Attached you can find general instructions concerning travel, accommodation and expense reimbursements. Please find the tentative agenda and register for the meeting at <https://indico.cern.ch/conferenceDisplay.py?confId=226971>
The registration will be open until Thursday 31 January 2013.

With kind regards,

Marzio Nessi and Markus Nordberg
