

Session Program

3-6 Jun 2013

**International Workshop on Breakdown
Science and High Gradient Technology
(HG2013)**

***High gradient technology applications: novel
photon sources, FELs, medical and industrial
applications II***

ICTP Trieste
Strada Costiera, 11 34151 Trieste (ITALY)

Wednesday 5 June

09:00

High gradient technology applications: novel photon sources, FELs, medical and industrial applications II

Session | **Location:** ICTP Trieste, Strada Costiera, 11 34151 Trieste (ITALY)

09:00–09:25 **Physics and applications of Thomson/Compton back scattering**

Speaker

Vittoria PETRILLO

09:25–09:50 **ELI-NP project**

Speaker

Marian TOMA

09:50–10:15 **Status of the C-band system at SINAP**

Speaker

Qiang GU

10:15–10:40 **Turkish FEL project and proposals**

Speaker

Avni AKSOY

10:40
